

## HALF MODELS XODs and Classic Yachts of all types

Hand-crafted from selected hardwoods in the traditional manner, these half models are made to a scale of 1/12 and are finished to the precise requirements of the owner in respect of topsides, waterline, cove line and antifouling.

Models are usually mounted on a polished back-board of either European oak or mahogany and specific details of the yacht and her ownership recorded on a small brass plaque.

Presentation of the half model to HRH The Princess Royal  
on the occasion of Centenary of the XOD Class  
for starting the race in Cowes Week  
on 11th August 2011

To discuss your requirements and for further information, please contact the builder,  
Nicholas China (X122 Eve) on:
